

Brinkley Knows... RV System Controls and Apps

Answers to frequently asked questions from our Customer Care staff

REV-A

RV SYSTEM CONTROLS AND APPS

Each Brinkley RV uses a central system to control various components of the RV (slide-outs, lighting, awnings, etc.). Most of them have an associated app that you can download to your mobile device to assist with controlling your RV systems.

The following tables will provide the Brinkley RV Model, the systems used on it, and a QR code to download the associated apps (if there is one) for those systems.

Brinkley Model	<u>System</u> <i>Application</i>	VIN Range	App Download QR Code
G / Gx	<u>Lippert OneControl</u> <i>Lippert OneControl App</i>	000001 - 002508	   
	<u>Firefly RV Control System</u> <i>RV+ Mobile App</i>	002509 - Current	
	<u>Victron MultiPlus / Victron Cerbo</u> <i>Victron Connect App</i>	002509 - Current	
	<u>Victron DC-DC Charger /</u> <u>Victron Solar Charge Controller</u> <i>Victron Connect App</i>	002135 - Current	
	<u>Rich Solar MPPT Solar Charge Controller</u> <i>Solar App</i>	000001 - 002508	
	<u>Rockford Fosgate PMX-1 Receiver</u> <i>RF Connect App</i>	000001 - Current
